

ERETES

A STRUCTURED INFORMATION SYSTEM FOR COMPILING NATIONAL ACCOUNTS

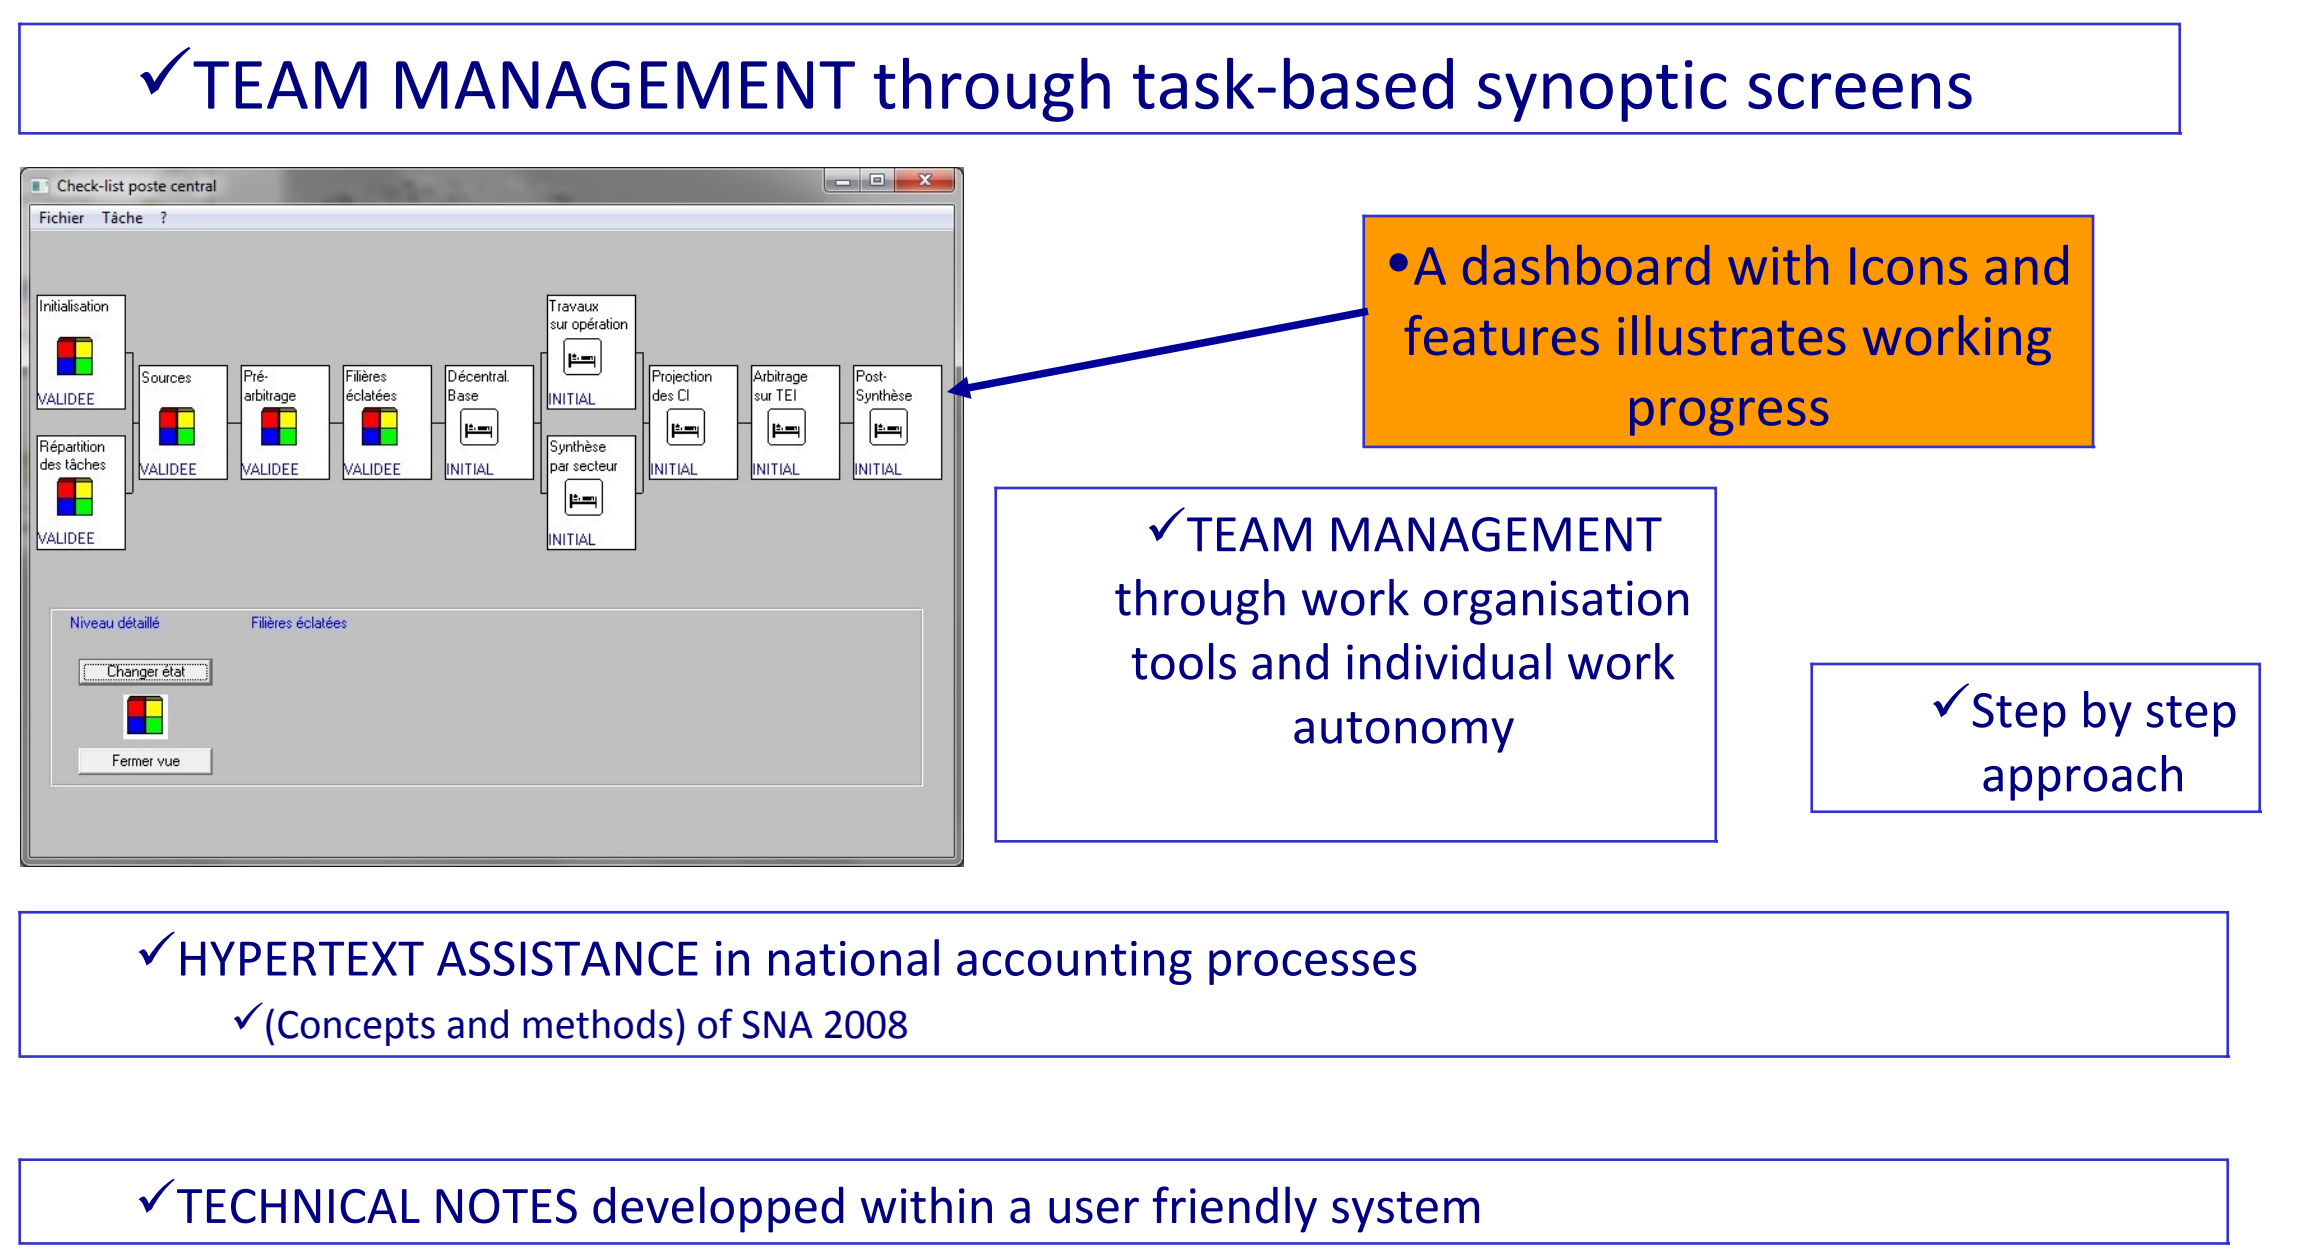

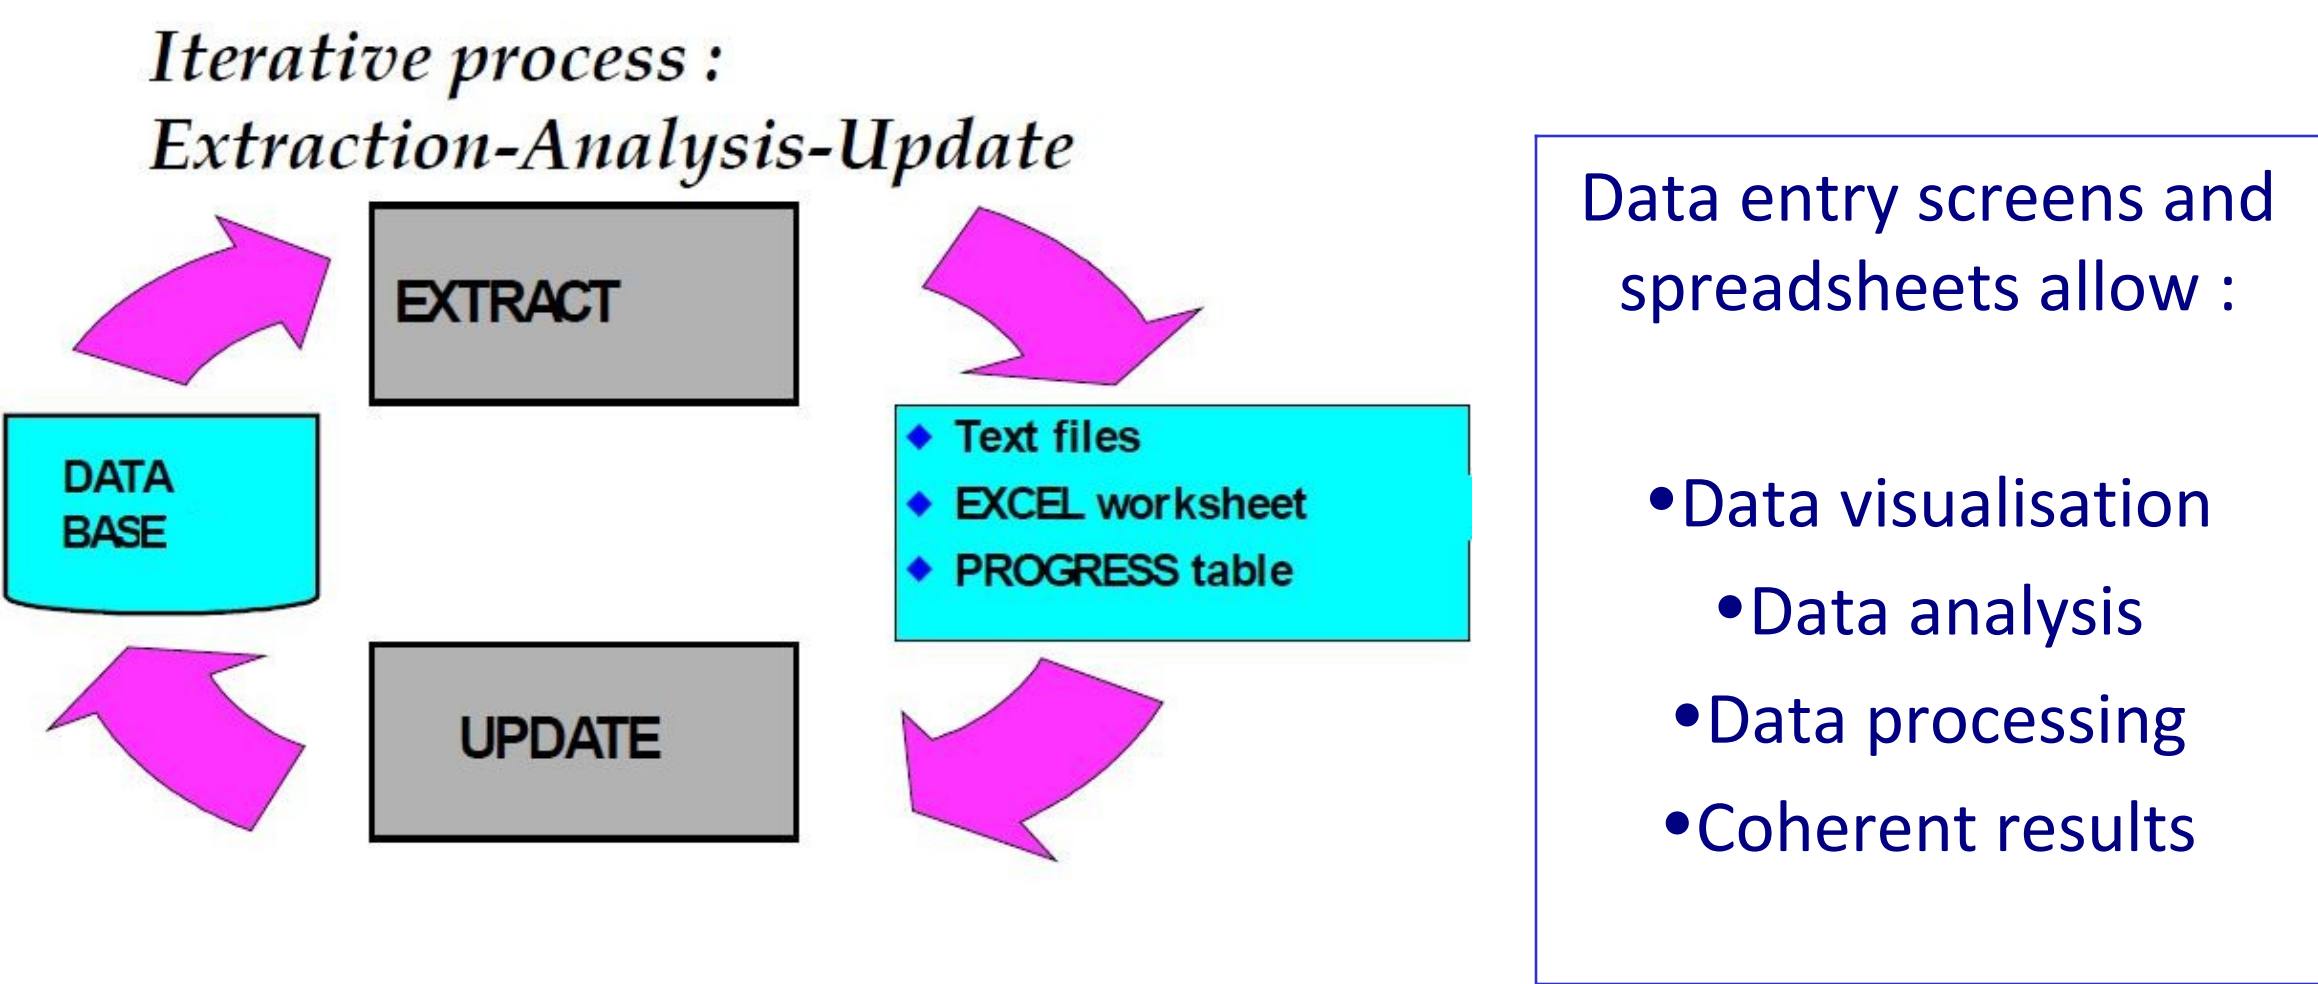

Eretes ?

A supported working environment to measure macroeconomic figures

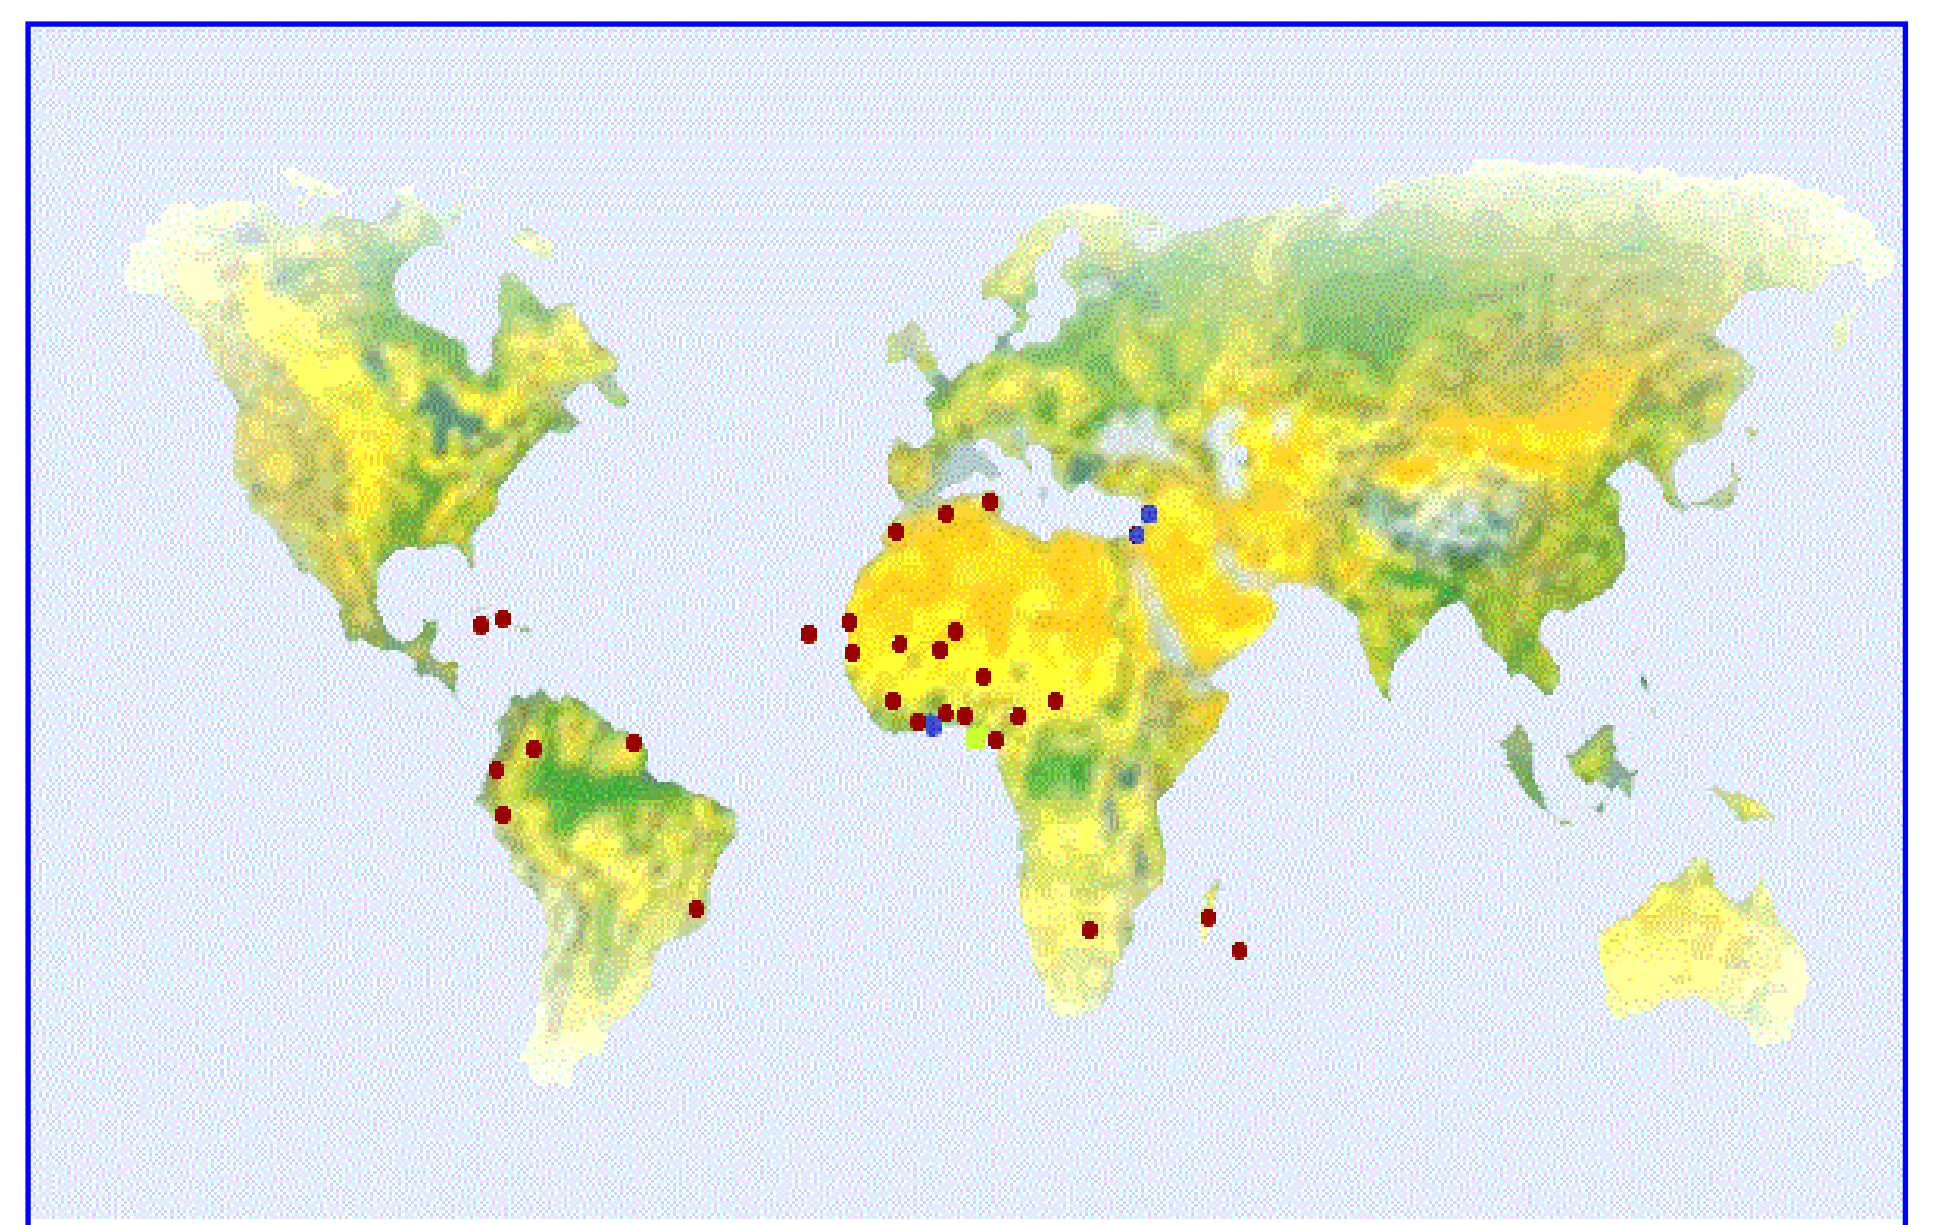

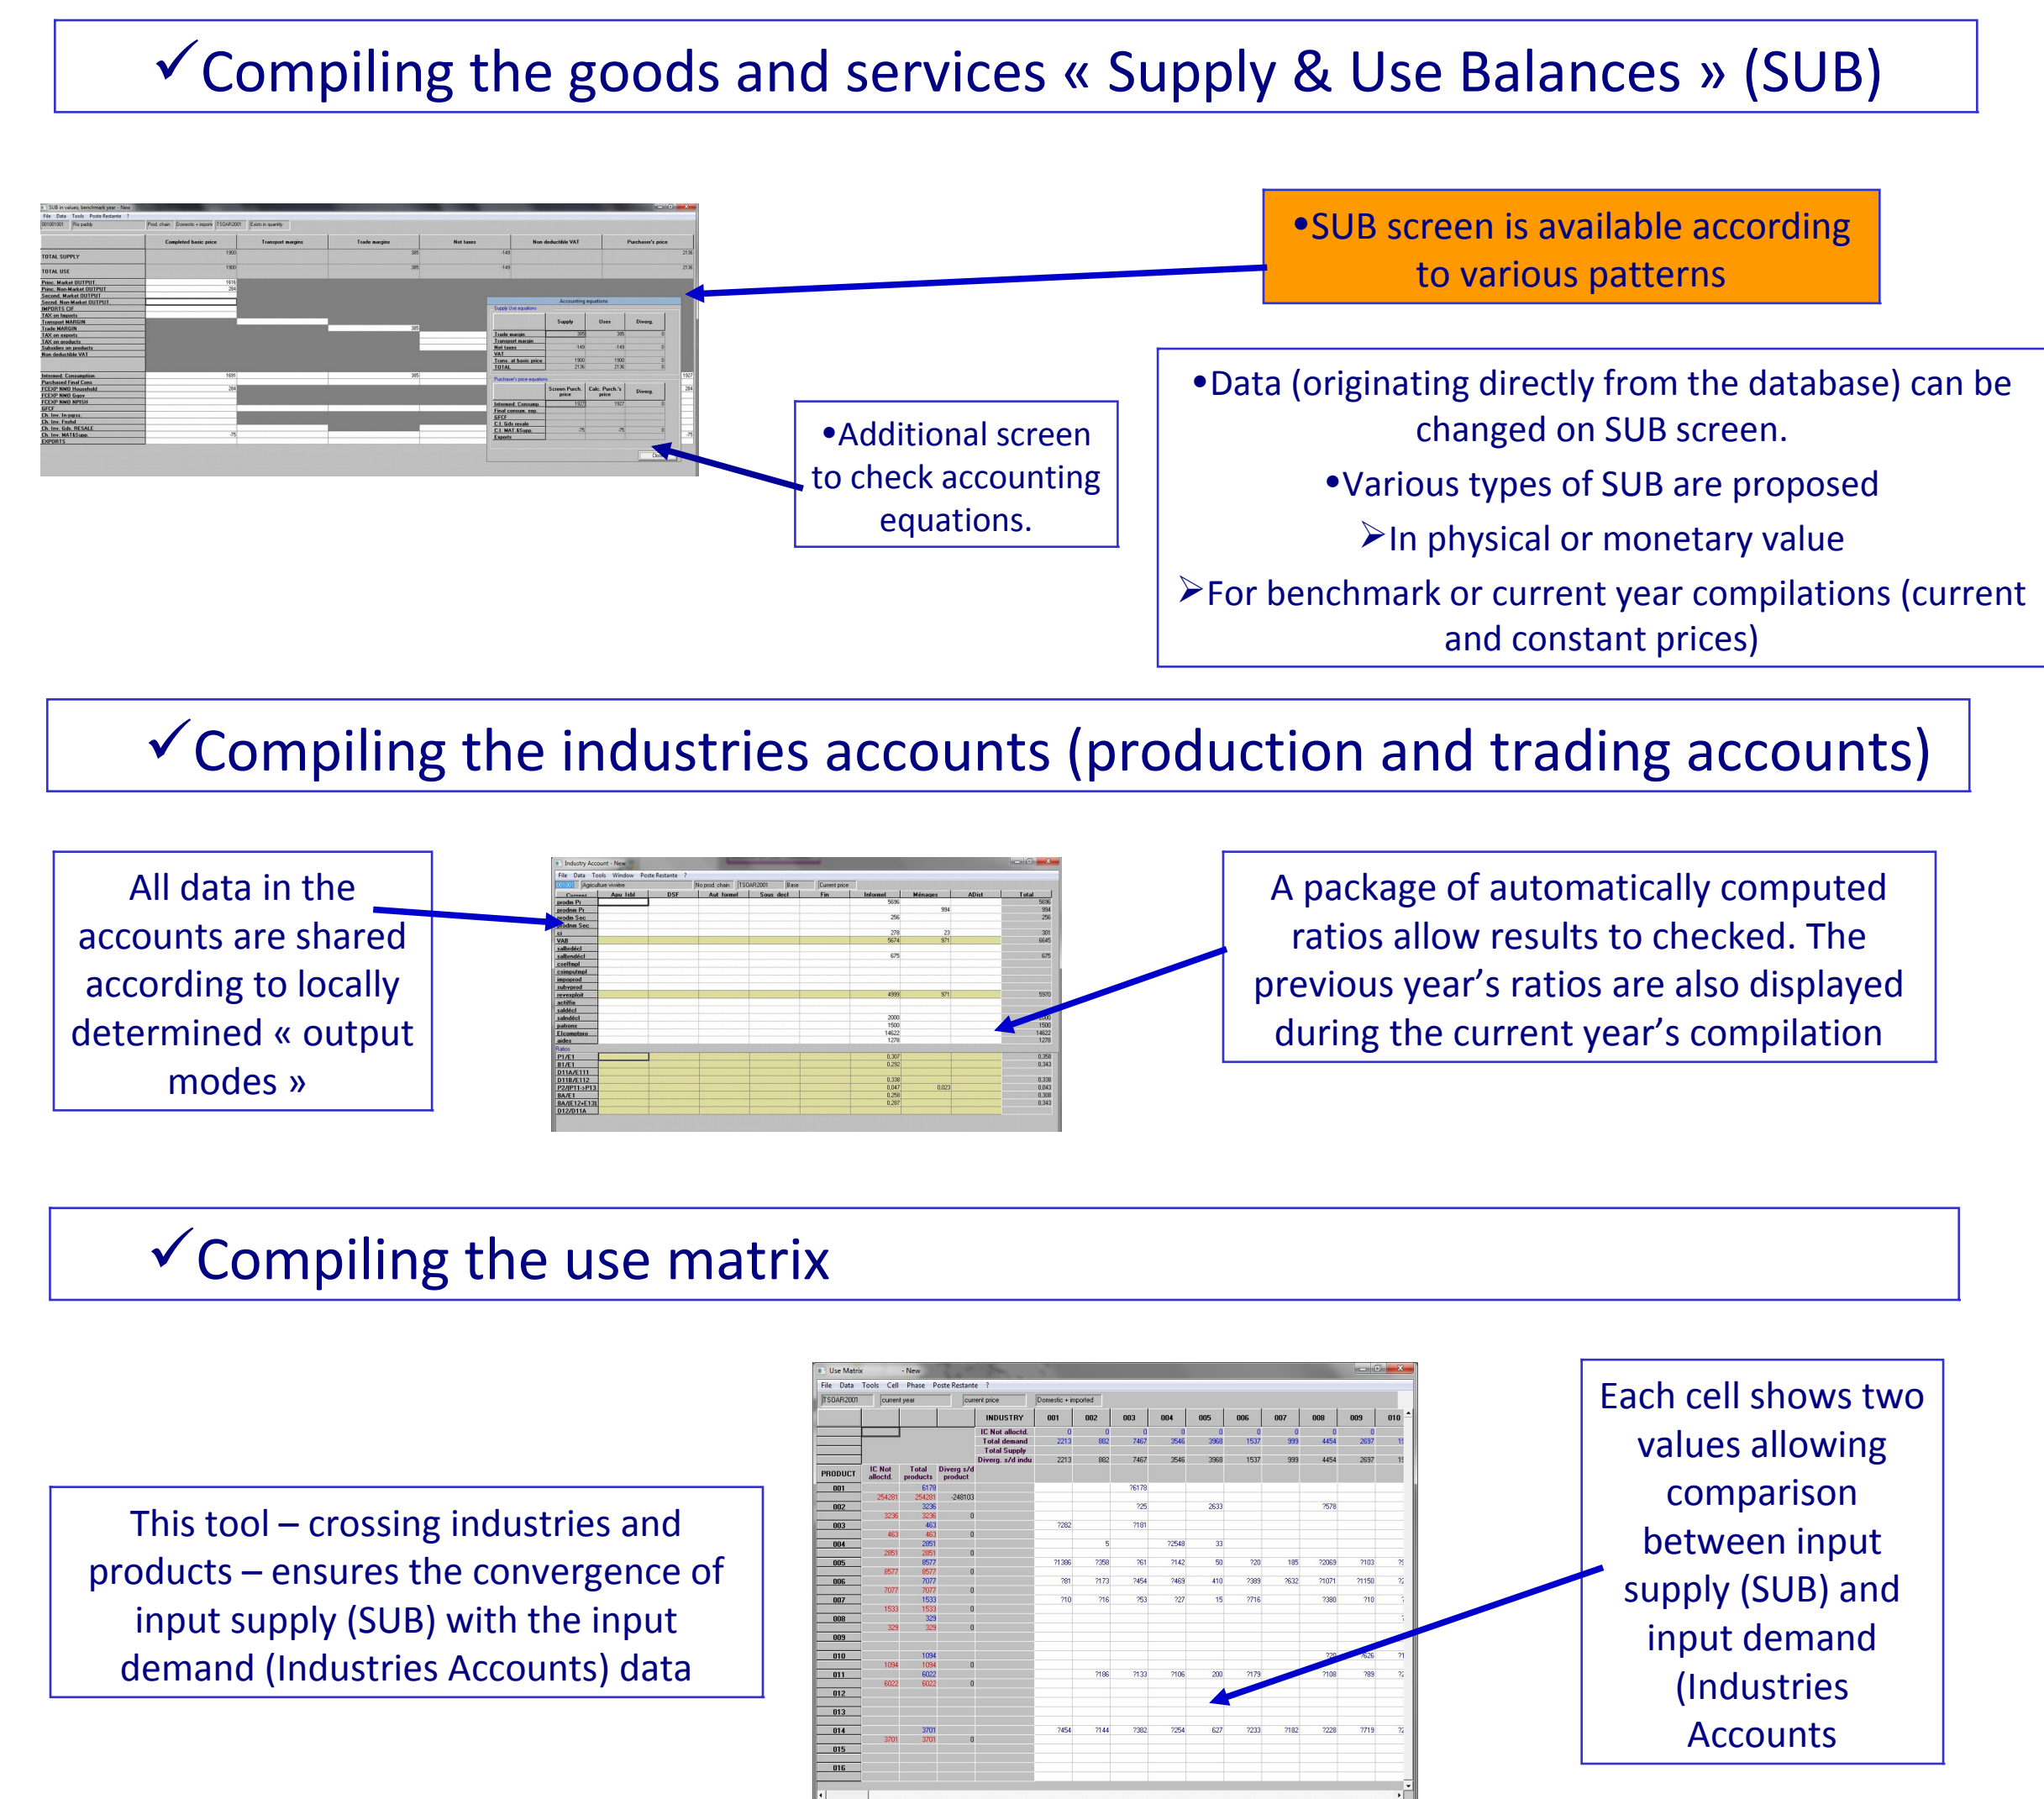

A database, strategic information centre

An interactive working framework

Powerfull work tables and tools for national accounts

Where ?

Over 30 countries in the world :Africa, South America and Middle East

ERETES ensures **harmonisation** and **comparability** of results

A secured and flexible information system

More than a tool : a common methodology supported by

SNA 2008

a Users community

training and knowledge transfer

Enhances reliability and completeness of the accounts compilation

To produce and disseminate statistics to serve **integration** needs

Chosen as the reference national accounts tool in the **Pan African Statistics Programme**

The ERETES GROUP :

It is a **users' community**. The objective of the group is to promote ERETES, suggest improvements and promote the ERETES tool

Being a member of the Group means being a protagonist in the future of the ERETES module and belonging to a community of people who wish to offer their experience and to benefit from that of others.
